

" We have over many years implemented various programmes to upgrade as well as to provide new facilities in the housing estates in Geylang Serai. We will now do more under the Town Renewal Programme, for example, lifts stopping on all floors in the flats, linkways, better children play facilities, sports and leisure facilities for a healthy lifestyle, lively resident's corners where residents can get to know each other better and strengthen friendship and others based on proposals and feedback obtained from our residents and our community and grassroots volunteers. We want a beautiful Geylang Serai; a happy, cosy and safe home for our residents. "
